Index

A

Absorption, intestinal, of large molecules in neonatal pig and lamb, effect of dietary regimen on cessation of, 263.

Adipose tissue, epididymal, rat, effect of diet on *in vitro* metabolism of, 384.

AHN, PHILIP. See Caster, W. O., 147.

ALDRIDGE, W. G. See Gerber, G. B., 307.

ALLISON, J. B., R. W. WANNEMACHER, JR., W. L. BANKS, W. H. WUNNER AND R. A. GOMEZ-BRENES. Dietary proteins correlated with ribonuclease, ribonucleic acid, and tissue proteins, 333.

American Institute of Nutrition, proceedings of 26th annual meeting, 120.

Amino acid(s), ability of chick to utilize D- and excess L-indispensable amino acid nitrogen in synthesis of dispensable amino acids, 95.

— —, acute deficiencies, chemical pathology of. II. Comparison of morphologic and biochemical changes in young rats fed protein-free or threonine-free diets, 269.

— — content in plasma and muscle, and growth in weanling rats fed low-protein diet, effect of nonessential nitrogen supplements on, 115.

— — deficiency and tryptophan toxicity in collagen synthesis, 133.

— —, FAO reference pattern of, and oat pattern, nitrogen balances of young women fed the, 10.

— —, free, in dog blood and gut contents after feeding meat, 241.

— —, imbalance, effect on nitrogen retention. I. Effect of a relative deficiency of tryptophan in dogs, 365.

— — imbalance, threonine-induced, effect on excretion of tryptophan metabolites by the rat, 101.

— — imbalances related to cold exposure, in the rat, 359.

— —, most limiting in milk protein in infant diet, 57.

— —, ratio of indispensable-to-dispensable, in diets for rats, effects of altering, 278.

ANDERSON, T. A., FARRIS HUBBERT, JR., C. B. ROUBICEK AND R. E. TAYLOR. Influence of protein depletion on vitamin A and carotene utilization by vitamin A-deficient sheep, 341.

Anemia and DNA metabolism in vitamin E-deficient hamsters, 307.

Antithyrotoxic activity of various dietary supplements compared with standard liver residue by assay, 403.

— assay based upon the metabolic rate response, 403.

— effect of liver residue, nature of, 393.

Asparagine and related nutritional supplements, effects of on alcohol-induced rat liver triglyceride elevation, 219.

Atherosclerosis and cholesterol in the chick; effects of levels of certain dietary lipids on plasma, 184.

ATWATER, WILBUR O. — a biographical sketch, 1.

Awards, fellows and life membership, AIN, invitations for nomination for, 120.

B

BALIS, M. EARL. See Snyderman, Selma E., 57.

BANKS, W. L. See Allison, J. B., 333.

BARKER, HORACE A., recipient of Borden Award, 120.

BARNES, R. H. See Lowrey, R. S., 245.

BARTZ, ELISABETH P. See Harrill, Inez, 320.

BERNHART, F. W. See Tomarelli, R. M., 44.

β-Aminopropionitrile toxicity in the chick, partial reversal of by calcium, 207.

BAVETTA, L. A. See Nimni, M. E., 133.

BAVETTA, LUCIEN A. See O'Day, Pat, 37.

BIRD, H. R. See Featherston, W. R., 95, 198.

BIRKHEAD, N. C. See Issekutz, B., Jr., 189.

BLACKWOOD, UNABELLE B. See Naber, Edward C., 207.

BLOCK, JOSEPH P., tribute following death of, 120.

BONANNO, ROSEMARY A. See Di Giorgio, John, 384.

Bone formation, studies on role of manganese in. I. Effect on mucopolysaccharide content of chick bone, 51.

BORCHERS, RAYMOND. Digestibility of threonine and valine by rats fed soybean meal rations, 330.

BOYER, AUDREY. See Snyderman, Selma E., 57.

BRESSANI, RICARDO. Effect of amino acid imbalance on nitrogen retention. I. Effect of a relative deficiency of tryptophan in dogs, 365.

BUTTERS, H. E. See Scott, M. L., 223.

C

Calcium in sweat, calcium balance, and calcium requirements, relationship between, in man, 78.

— in the chick, partial reversal of beta-aminopropionitrile toxicity by, 207.

— orthophosphates, availability to chickens and turkeys, 155.

—, phosphorus and vitamin D_3 relationships in rats by multiple regression techniques, 28.

Caloric level and protein quality, influence on manifestations of protein deficiency in the young pig, 245.

Carbohydrate(s) and roughage requirement of the cricket, *Acheta domesticus*, 139.

—, effect on utilization of protein and lysine by rats, 21.

Carotene and vitamin A utilization by vitamin A-deficient sheep, influence of protein depletion on, 341.

Casein or fish flour as sole source of dietary protein, performance of rats fed through four generations, 457.

CASTER, W. O., PHILIP AHN, ELDON G. HILL, H. MOHRHAUER AND RALPH T. HOLMAN. Determination of linoleate requirement of swine by a new method of estimating nutritional requirement, 147.

CHANDLER, P. T., AND R. G. CRAGLE. Investigation of calcium, phosphorus and vitamin D_3 relationships in rats by multiple regression techniques, 28.
CHANG, VET-OY. Effect of carbohydrates on utilization of protein and lysine by rats, 21.
Cholesterol and atherosclerosis in the chick; effects of levels of certain dietary lipids on plasma, 184.
— metabolism, effect of vitamin B_{12} deficiency on, 109.
Choline, low-, diets containing 2-amino-2-methylpropanol, effect of amino alcohols and methyl donors on liver fat of rats fed, 295.
CHOW, BACON F. See Icayan, Elena E., 109.
CLARK, HELEN E., LOIS L. REITZ, TUNNEE S. VACHAROTAYAN AND EDWIN T. MERTZ. Effect of certain factors on nitrogen retention and lysine requirements of adult human subjects. II. Interval within experiment when dietary lysine and nitrogen were constant, 173.
Cobalt, inorganic, and cobamide analogues, radioactive, tissue uptake and urinary excretion of in growing female rabbits, 348.
Cobamide analogues and inorganic cobalt, radioactive, tissue uptake and urinary excretion of in growing female rabbits, 348.
COLBURN, R. W. See Hill, C. H., 424.
Cold exposure, interrelationships with amino acid imbalances, in the rat, 359.
— stress, effect on nitrogen balance of men under different dietary conditions, 189
Collagen synthesis, tryptophan toxicity and amino acid deficiency in, 133.
COMAR, C. L. See Michelson, Irving, 371.
CONSOLAZIO, C. FRANK, LEROY O. MATOUSH, RICHARD A. NELSON, L. ROSS HACKLER AND E. EUGENE PRESTON. Relationship between calcium in sweat, calcium balance, and calcium requirements, 78.

— -free or protein free diets, comparison of morphologic and biochemical changes in young rats fed, 269.
— -induced amino acid imbalance, effect on excretion of tryptophan metabolites by the rat, 101.
Thymidine-H^3 injection in vitamin E-deficient hamsters, 307.
TOMARELLI, R. M., AND F. W. BERNHART. Biological assay of milk and whey protein compositions for infant feeding, 44.
Transketolase, rat tissue, effects of thiamine and oxythiamine on, 179.
Triglyceride elevation, alcohol-induced rat liver, effect of asparagine and related nutritional supplements on, 219.
Tryptophan, effect of relative deficiency on nitrogen retention in dogs, 365.
— metabolites, effect of threonine-induced amino acid imbalance on excretion of by the rat, 101.
— -niacin metabolism. I. Pregnancy, ovarian hormones and levels of tryptophan intake as factors affecting tryptophan-niacin metabolism of the rat, 287.
— toxicity and amino acid deficiency in collagen synthesis, 133.

U

URAM, JEROME A., tribute following death of, 120.
Urea and ammonium nitrogen, effectiveness of for synthesis of dispensable amino acids by the chick, 198.

V

VACHAROTAYAN, TUNNEE S. See Clark, Helen E., 173.
Valine and threonine, digestibility by rats fed soybean meal rations, 330.
VAUGHAN, DAVID A. See Klain, George J., 359.
VAUGHAN, LUCILE N. See Klain, George J., 359.
Vitamin A and copper, dietary, effect of gamma irradiation and interrelation of, on their deposition in liver of swine, 454.
— A storage in the rat, effect of nitrate and nitrite on, 73.
— B_{12} deficiency, effect on cholesterol metabolism, 109.
— B group, hematological studies in mature turkey hens fed diets deficient in, 162.
— D_2, calcium and phosphorus relationships in rats by multiple regression techniques, 28.
— E-deficient chick, and supplementation with coenzyme Q_{10} and Q_6 in encephalomalacia and muscular dystrophy, 15.
— E-deficient hamsters, biochemical and autoradiographic studies on deoxyribonucleic acid (DNA) metabolism in, 307.
— K-active compounds and intestinal microorganisms, effects in vitamin K-deficient germfree rats, 461.
—, protein and salmonellosis resistance factor, relative roles in natural resistance of mice to salmonellosis, 424.

W

WALLACE, H. D. See Shirley, R. L., 454.
WANNEMACHER, R. W., JR. See Allison, J. B., 333.
WANNEMACHER, R. W., JR. See Prosky, L., 419.
WARNICK, A. C. See Shirley, R. L., 454.
Weight maintenance and food intake, 255.
WESTERFELD, W. W., RICHARD J. DOISY AND DAN A. RICHERT. The nature of the antithyrotoxic effect of liver residue, 393.
WESTERFELD, W. W., WILLIAM W. HOFFMAN AND DAN A. RICHERT. An antithyrotoxic assay based upon the metabolic rate response, 403.
Whey and milk protein compositions, biological assay of for infant feeding, 44.

WHITESIDE, C. H., T. M. FERGUSON AND J. R. COUCH. Hematological studies in mature turkey hens fed diets deficient in B vitamins, 162.
WILKES, STELLA. See Richardson, L. R., 301.
Women, young, fed FAO reference pattern of amino acids and oat pattern, nitrogen balances of, 10.
WOODALL, A. N. See Nicolaides, Nicholas, 431.
WUNNER, W. H. See Allison, J. B., 333.

X

Xanthine oxidase, liver, activity and iron storage proteins, reduction of in rats fed excess zinc, 415.

Y

YOUNG, R. J. See Gillis, M. B., 155.
